Could I Have This Dance?

```
D                          G               A7
I'll always remember the song they were playing
      G           A7          D    A7
The first time we danced and I knew
          D                     G           A7
As we swayed to the music and held to each other
G       A7        D  A7
I fell in love with you

         D                    G
Could I have this dance for the rest of my life
        A7                  G     A7
Would you be my partner, every night
D              D7        G      Gm
When we're together, it feels so right
        D                      A7         D
Could I have this dance, for the rest of my life

   D                      G      A7
I'll always remember, that magic moment
G             A7       D  A7
When I held you close to me
     D                    G           A7
As we moved together, I knew forever
G          A7   D   A7
You're all I'll ever need
