# Love Me Do

"Love Me Do" is an early Lennon/McCartney song, principally written by Paul McCartney in 1958–1959 while playing truant from school aged 16. John Lennon wrote the middle eight bar bridge. The song was The Beatles' first single, backed by "P.S. I Love You" and released on 5 October 1962. When the single was originally released in the United Kingdom, it peaked at number seventeen; in 1982 it was re-issued and reached number four. In the United States the single was a number one hit in 1964.
